AI & Automation Agency Launch Blueprint

Complete Practical Guide: Zero-Cost Setup, Flowcharts & High-Value Automations

1. Zero-Cost Core Software Stack

You do not need paid enterprise subscriptions to launch. Everything required to build, test, and demo high-ticket business automations is already installed or accessible on your machine at zero cost:

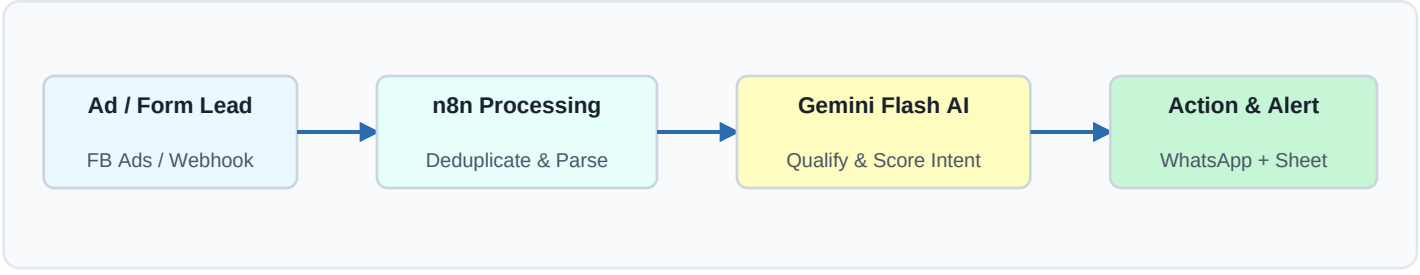
Component	Software / Tool	Cost	Purpose
Core Engine	n8n (Self-Hosted)	■0	Visual drag-and-drop workflow builder. Runs locally on port 5678 without task quotas.
AI Reasoning	Google Gemini API (AI Studio)	■0	Gemini 1.5/2.0 Flash with free tier (15 requests/min) for OCR, parsing, and chat.
Scripting & Code	Python 3.15 + VS Code	■0	Custom logic, webhooks, data transformations, and browser automation.
Data Storage	Google Sheets / Airtable	■0	Client-friendly lightweight databases for tracking leads, logs, and orders.
Screen Demos	Loom (Free Plan)	■0	2-minute proof-of-concept videos to pitch non-technical owners.

2. Quick Setup Verification

- **Launch n8n:** Open PowerShell and run n8n start. Access the visual editor in Chrome at http://localhost:5678.
- **Get Free Gemini Key:** Visit aistudio.google.com, sign in with your Google account, click 'Get API Key', and copy the key.
- **Run Custom Script:** Run python lead_qualifier_demo.py inside your workspace folder to test AI parsing on incoming customer requests.

3. High-Value Automation #1: Instant WhatsApp Lead Qualifier

Best for: Real estate developers, interior designers, coaching classes, clinics.
The Problem: 99acres, Facebook ads, and website leads go cold because human sales reps call hours late.
The Automation Flow:



4. High-Value Automation #2: AI Document & Invoice Scanner

Best for: Chartered Accountants (CAs), logistics firms, traders, wholesalers.
The Problem: Accountants waste 10–20 hours a week manually entering figures from paper bills or PDF invoices into Tally or Excel.
The Automation Flow:
